Apprenticeships

A Newsletter for the L6-PHP Apprenticeship Programme in Yorkshire & Humber

27 Aug 2021 – Vol 1 – Iss 10

Update on Y&H's Applications to UoS

Yorkshire and Humber region have currently submitted 12 applications to the University of Sunderland (UoS).

Five more applications are yet to be submitted to make up the expected cohort size of 17 apprentices.

UoS are yet to send out acceptance letters to the individual applicants.

As we wait for UoS' contracts and letters, employers are encouraged to complete the Unique Reference Number (URN) forms attached and send it over to [Simon Dennis](#) at Salisbury Procurement.

Our next employer engagement event will review and discuss how the recruitment of the first cohort has been. Individual employers

UoS' Mentoring Support & Tripartite Meetings

The University of Sunderland (UoS) discussed their plans to support mentors at the last employer engagement events.

UoS revealed they were currently developing a Continuous Professional Development (CPD) mentoring program scheduled to begin somewhere in October 2021. This will be a 3/4-month program that will run at different times within a year.

Interested applicants could either take an accredited (assessment based) or non-accredited (no assessment) route. The accredited route could be done as a level 6 or 7 program. Individuals who take the non-accredited route will receive a certificate of participation at the end of the program.

UoS added that this program will be at no cost to the employer

UoS briefly discussed the content of the generic program looking at topics such as; mentoring versus coaching, different types of mentoring and, navigating the different challenges with apprentices and many others.

Further details about the program to be published soon by the university. Details of an information event for interested employers will soon be made available.

UoS also discussed regular tripartite meetings with the employer and apprentices every 8-10 weeks to;

1. Ensure the apprentices are getting the support they need and are on track with the program.
2. Assess the impact of the apprenticeship on the individual apprentices and their organisations
3. Provide regular progress reports on the apprentice(s).
