LEEDS COMMUNITY ANCHOR NETWORK

Throughout the Covid-19 pandemic, a group of locally trusted organisations provided emergency support to local people in Leeds, covering a range of activities including food parcels and welfare calls.

Through this work, these organisations have built partnerships with other local organisations to provide a wider package of support to local citizens. These organisations were called Community Care Hubs and aim to work in a citizen-led way, involving local people in the design and delivery of services.

Community Care Hubs covered each electoral ward during the first two years of the pandemic.

Many of these went onto form Community Anchors in their area building on partnerships already built up.

Leeds Community Anchor Network (LCAN) members now number 19 organisations and partnerships, some big some small, but all working to their own particular strengthens and with their own knowledge of the communities they work with.

Aim of the network

LCAN is made up of organisations or partnerships who aim to help ensure the communities of Leeds thrive.

Each member has a unique understanding of the communities they work with. The network looks to ensure the voices of communities are heard 'at the 'top table'.

The network seeks to affect systemic change, to be brave and creative and work in partnership to achieve a fairer more just society of thriving communities with equal access to services.

Ways of working

Collaboration not competition

Generous leadership

Decisions by consensus

Leadership Group and full network meetings

Recognises anchors at different parts of journey

Sector-led not system -led network

Working groups on particular issues

Community - led organisations
