

BUILDING VACCINE AND SCREENING CONFIDENCE TRAINING PROGRAMME

We have commissioned a further round of workshops to support both Flu and Covid-19 winter vaccination campaigns. These are aimed at trusted community champions and those in both public and patient facing roles where there is an opportunity to Make Every Contact Count.

We particularly wish to target participants who come into contact with low vaccine uptake populations and screening hesitancy including: areas of high deprivation, ethnic minority groups, parents of 2&3 year olds and those in at risk categories.

The skills training covers:

- How can we work together to build vaccine confidence, what we know and how this links to health inequality
- Core skills and processes (OARS, Evoke-Provide-Evoke, Decisional Balance, and the 3As)
- Skills practice – Building confidence in the vaccine
- Resources that staff can use to respond to questions and concerns

**BOOST YOUR
IMMUNITY
THIS WINTER**

The session will be interactive and include modelled conversations that showcase the core skills and processes being used.

We will be running over 36 of these workshops from 12th September 2022 up until 10th January 2023. Please follow the link below or scan the QR code for further booking details.
