Infection Prevention and Control in Education and Childcare Settings September 2022

3

Aims and Objectives

Aim

4

To develop an understanding of the control of infectious diseases in schools and other childcare settings

Objectives:

- The role of the Health Protection Team (UKHSA)
- Outline of common childhood diseases
- Infection prevention and control
- Principles of outbreak management (Respiratory and Gastrointestinal illnesses)
- Food and environment safety

What we do in The Health Protection Team

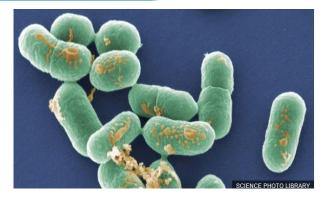

- Control the spread of communicable infectious diseases in the public
- Managing outbreaks
- Emergency response
- Radiation
- Chemical hazards
- Poison

5

Patient diagnosed with first case of Mers virus in England since 2013

Health authorities are tracing people who were in close contact with Middle East resident

The patient was transferred to Liverpool hospital, which has an expert respiratory infectious disease Photograph: Peter Byrne/PA

A person who was diagnosed with the first case of Middle East Respiratory Syndrome (Mers) in England since 2013 is said to be in a stable condition.

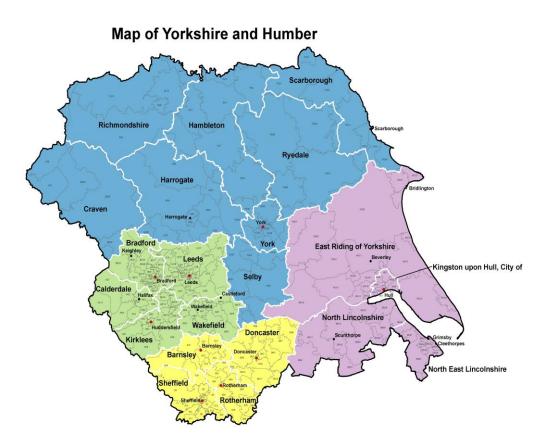

Public <u>Health</u> England (PHE) said the patient is a resident of the Middle East, where they are believed to have contracted the infection before travelling to the UK.

Areas we cover

• 14 Local Authority areas

Bradford, Barnsley, Calderdale, Doncaster, East Riding of York, Hull, Kirklees, Leeds, North Lincolnshire, North East Lincolnshire, North Yorkshire and York, Sheffield, Rotherham and Wakefield
