# **OHID Workforce programme for the PH Taster session – Snapshot**

**Chris Sharp, Workforce Development Manager, OHID Y&H**

Published 29/11/2022

# UKPHR Specialist Registration by Portfolio Assessment

UKPHR's Specialist Registration by Portfolio Assessment (SRbPA) registration is an alternative way of registering with UKPHR at Specialist level for those who have not undertaken the Standard Route of obtaining Specialist registration and are not on the GMC/GDC Public Health Specialty registers.

This registration route is aimed at those who are already working at Public Health consultant level and can demonstrate that they meet all UKPHR's Knowledge and Show How competencies.

Y&H are developing a support programme for this which includes: matrix mapping, 1:1 support and masterclasses/CPD

# Public Health Apprenticeships

- A programme of work based study to develop knowledge, skills and behaviours
- Combination of theoretical knowledge and competency based assessment
- Nationally accredited qualification
- Mixture of “on-the-job” and “off-the-job” training
- Related to a job role

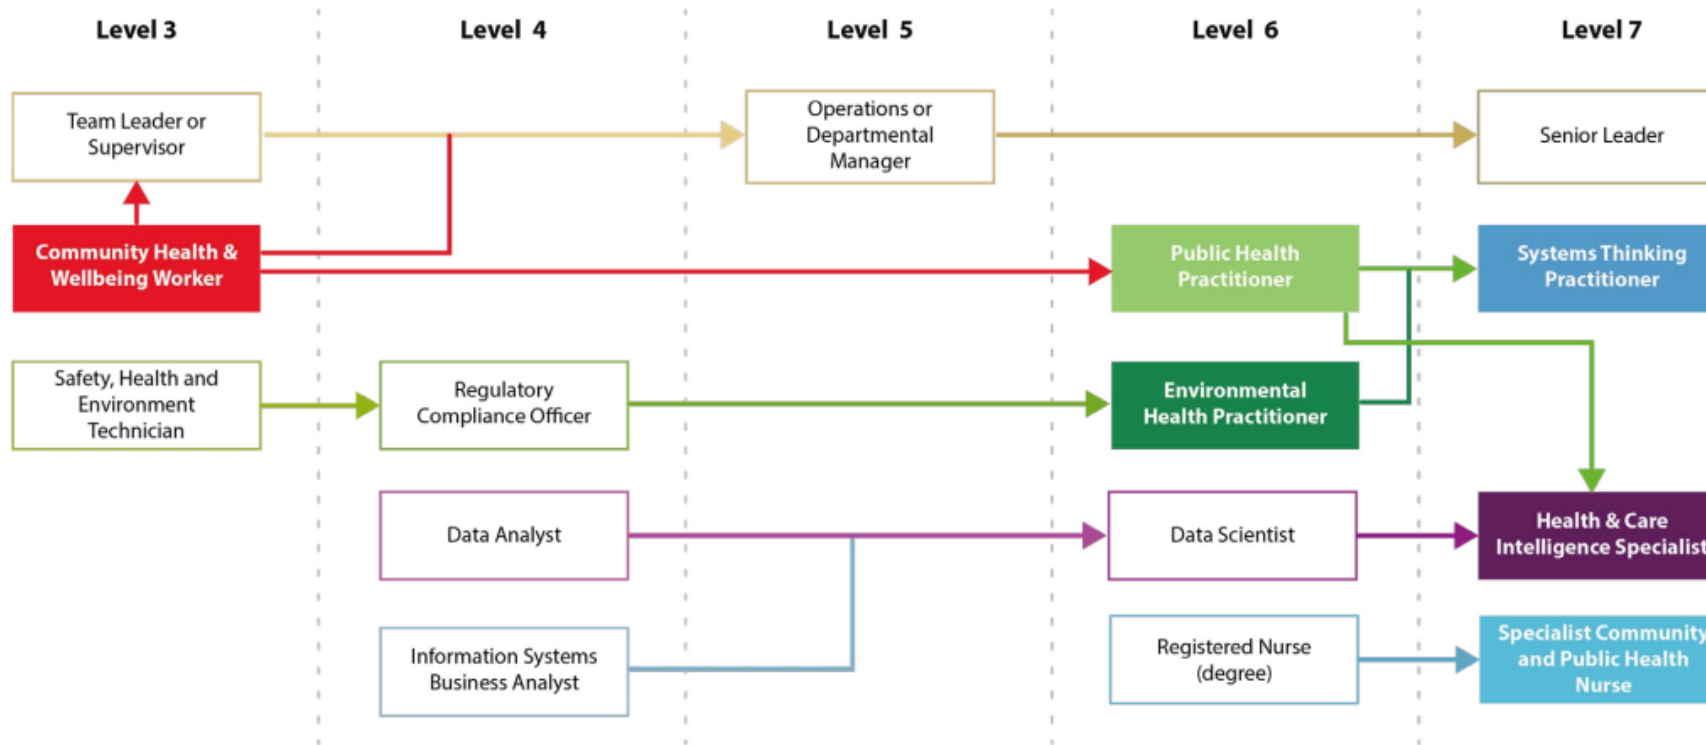

# Apprenticeships that support public health careers

A high-level diagram of some possible routes for public health apprenticeship standards.

NB: This diagram does not include every route available through health and science, care or business and administration standards.
