

# STI monitoring in North Yorkshire

Emma Davis, Public Health Manager  
North Yorkshire Council

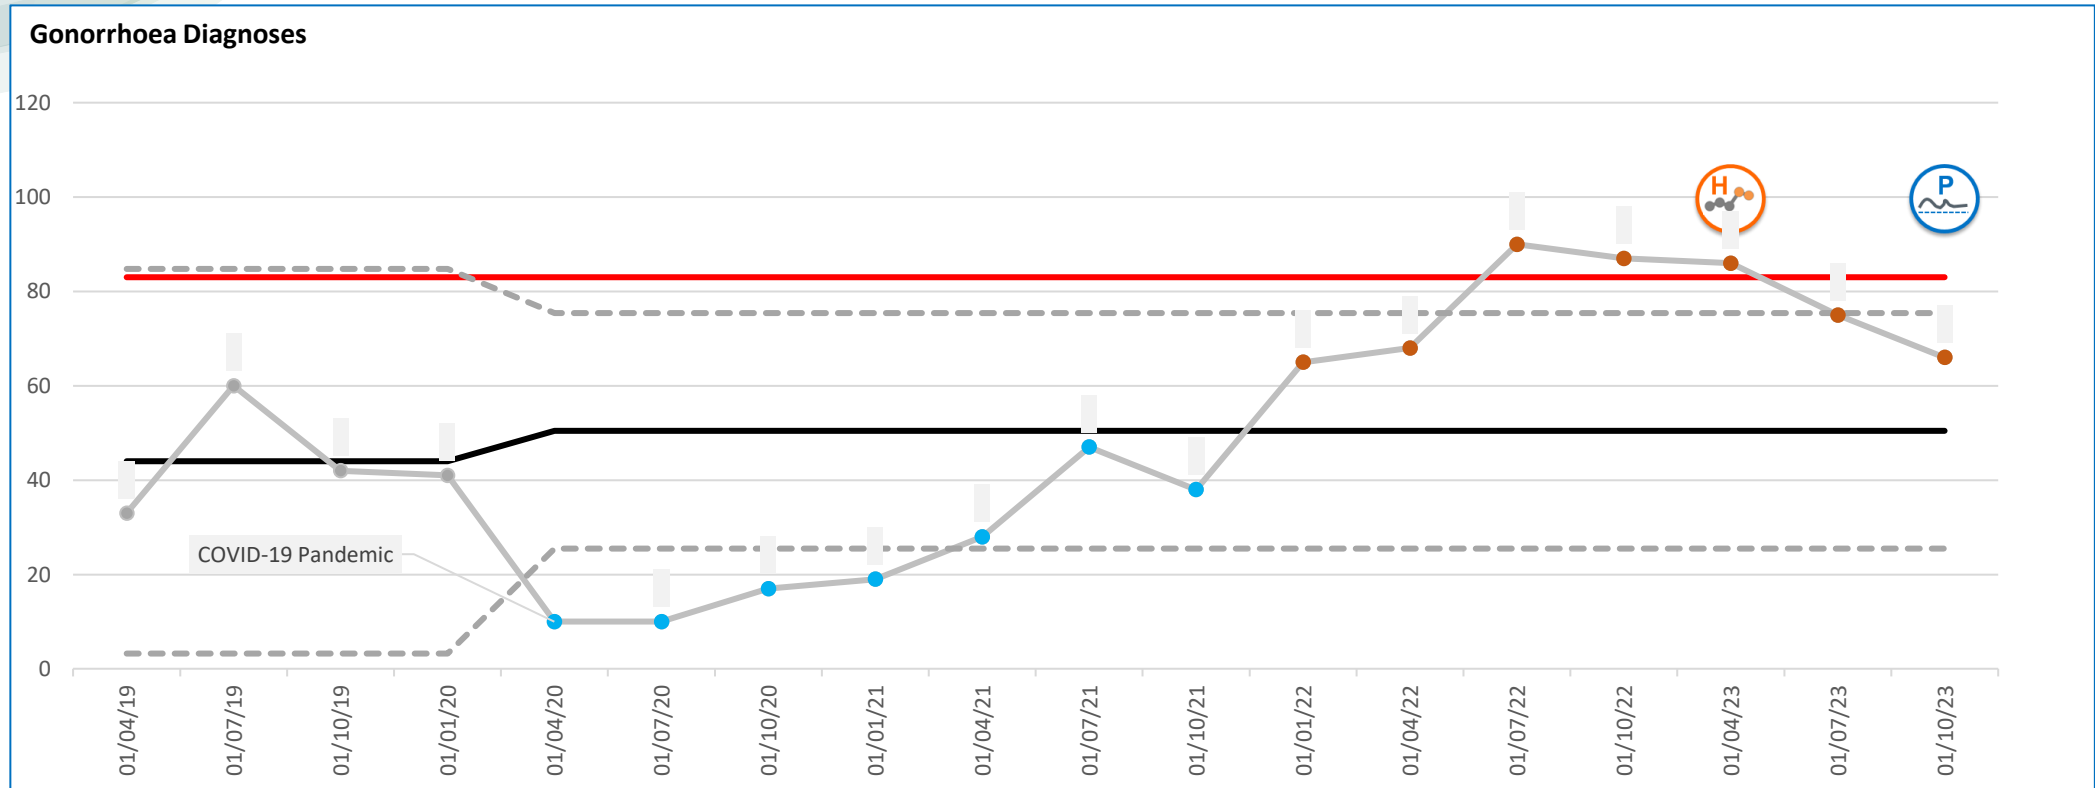

# Background context

- Y&H STI outbreak management session (Sept 2021)
- COVID-19 and Mpox
- Public health team restructure
- Sexual health connected to The North Yorkshire Health Protection Assurance Group
- Section 75 Partnership – refreshed service spec
- Katy Flint – Senior Strategy and Performance Officer
  - ADASS sub group – Performance and Standards
- NHS England – Making Data Count Team
  - Training and templates for SPC: <https://future.nhs.uk/connect.ti/MDC/groupHome>
- Sexual health data added into SPC template
- Y&H sexual health community of improver report on outbreak prevention and management
  - Shared North Yorkshire's SPC tool with UKHSA Field Team

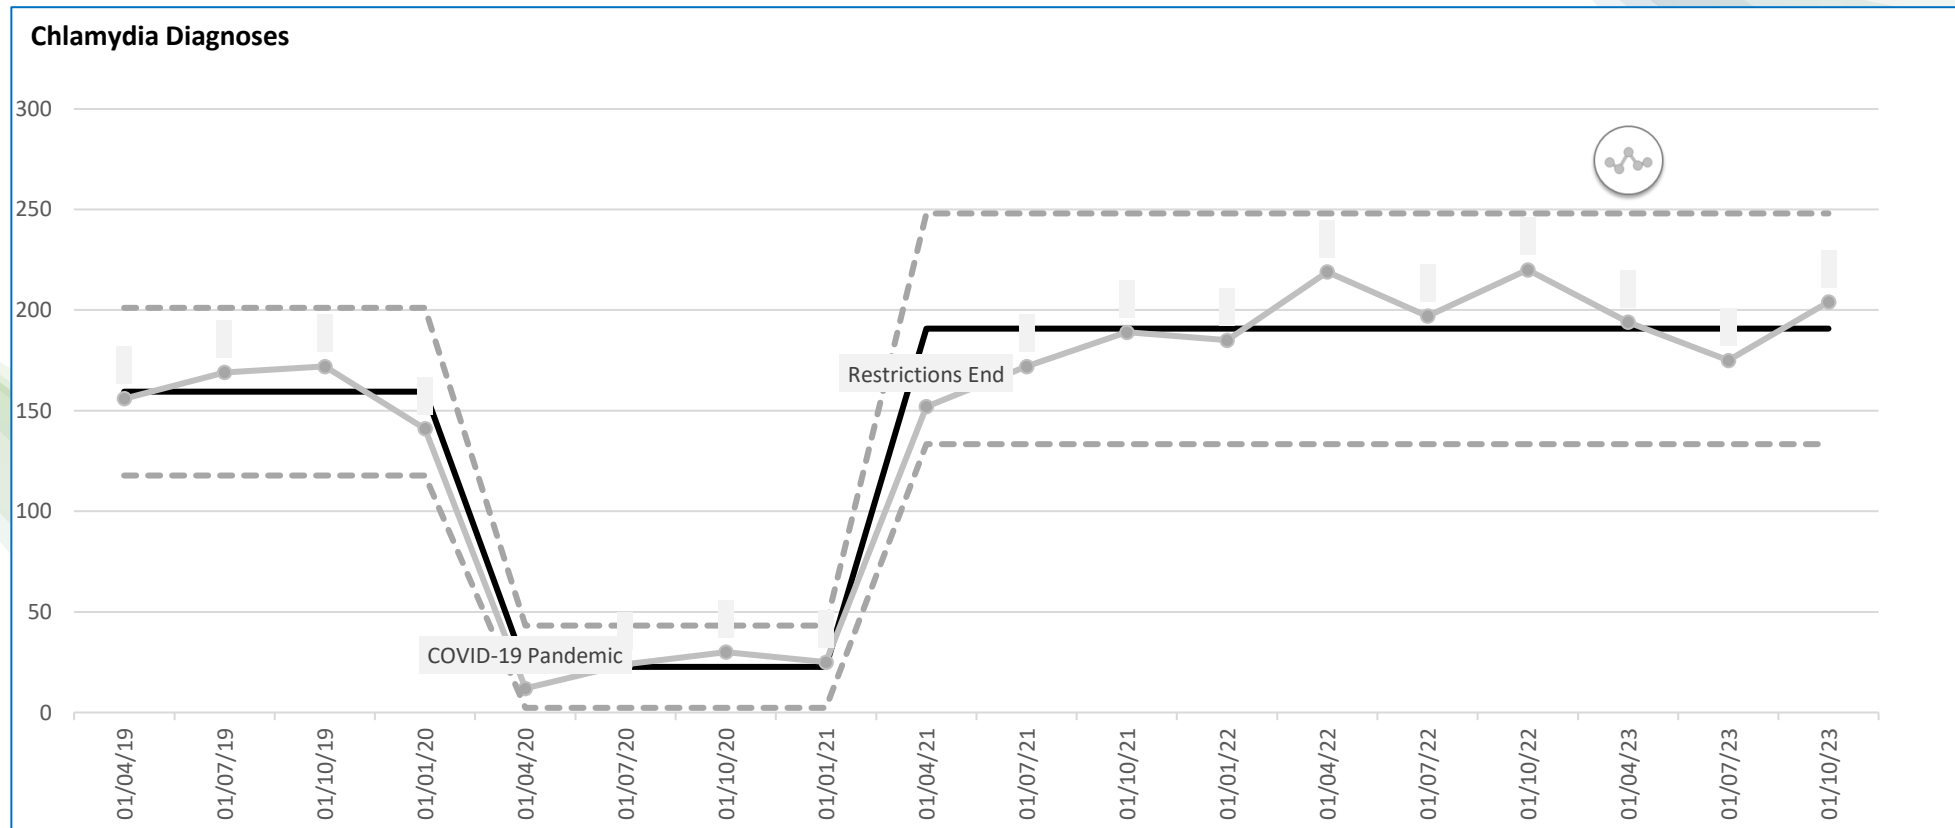

# How we use the tool in North Yorkshire

- The tool is updated quarterly in line with sexual health service reporting
- It tracks any changes using last 6 data points (last 6 quarters)
- Prompts questions, deeper review of data, related cases, particular source, identify and disrupt
- Fantastic team who undertake all the PN work – monthly reviews within service
- SPC data is used in performance reporting – Section 75 Partnership Board, North Yorkshire Health Protection Assurance Group, internal Council performance reports, KIT with Portfolio holder, Scrutiny

# Gonorrhoea diagnoses in North Yorkshire

# Chlamydia diagnoses in North Yorkshire
